

# NEURAL MANIPULATION

Facilitate freedom of  
movement within the nervous system.

The Neural Manipulation (NM) Certification Program through The Barral Institute examines mechanical relationships between the cranium/spine hard frame to the dura and neural elements. It provides assessment and treatment approaches to address restrictions of the dural and neural components not commonly focused on with musculoskeletal symptoms. NM identifies and releases local nerve restrictions while at the same time examines the effect these local fixations have on the rest of the body, and by accessing this relationship, resolves the more comprehensive (global) dysfunctional patterns.

866-5-BARRAL

Modality Co-Developers,  
Jean-Pierre Barral, DO & Alain Croibier, DO

**Neuromeningeal Manipulation:  
An Osteopathic Approach to Trauma (NM1)**

January 16 – 18, 2009 • New York, NY

Instructor: Barbara LeVan, PT

**Peripheral Nerves: Upper Body (NM2)**

July 16 – 18, 2009 • Las Vegas, NV

Instructor: Alain Croibier, DO (Modality Co-Developer)

**Peripheral Nerves: Lower Body (NM3)**

July 30 – August 1, 2009 • San Diego, CA

Instructor: Alain Croibier, DO (Modality Co-Developer)

**Brain and Cranial Nerve Manipulation (NM4)**

Date and location to be determined.

Textbooks available at [barralinstitute.com](http://barralinstitute.com):

*Manual Therapy for Peripheral Nerves* and *Manual Therapy for Cranial Nerves* by Jean-Pierre Barral, DO and Alain Croibier, DO
